Summary

Aspiring Frontend Developer with strong skills in HTML, CSS, and JavaScript. Experienced in building responsive and user friendly web applications, including the “Village Era” handmade handicraft selling platform. Skilled in designing interactive web interfaces, implementing dynamic features, and collaborating on projects to deliver high quality solutions.

Skills

Programming: C, C++, Java

Visualization Tools: Visual Studio Code, Online Compiler, Eclipse IDE

Analytical Abilities: Problem Solving, Debugging, Performance Optimization, Logical Thinking

Core Concepts: Basic understanding of Operating System, Computer Networks, and DBMS

Experience

Web Development Intern

July 2024 to August 2024

KistechnoSoftware

Tools Used: HTML, CSS, JavaScript

- Developed and maintained responsive web pages and user interfaces using **HTML, CSS, and JavaScript**, improving user experience across devices.
- Implemented interactive features such as forms, dynamic content, and basic data visualizations using JavaScript.
- Collaborated with team members to integrate static data and ensure seamless functionality across the website.
- Optimized website performance, reducing page load time by 20–25% through efficient coding and asset management.
- Participated in team meetings and code reviews to deliver high-quality features on time.

Web Development Intern

May 2025 to July 2025

Abhi Fire Safety

Tools Used: Python, Flask, Pandas

- Developed a **Expense Tracker** web application to help users monitor and manage personal expenses efficiently.
- Implemented backend logic using **Python** and **Flask** for data processing and server-side operations.
- Utilized **Pandas** to analyze and summarize user expense data for dynamic visualizations and reports.
- Designed responsive front-end pages using **HTML** and **CSS**, enabling seamless interaction and data entry.
- Tested, debugged, and optimized the application for smooth performance and usability.

Projects

Village Era | HTML

July 2024 to September 2024

- **Village Era. Handicraft E Commerce Platform:** Developed a website to showcase and sell handmade products from local artisans.
- Built responsive web pages using HTML, CSS, and JavaScript for seamless user experience across devices.
- Implemented interactive features including product catalog, search functionality, and dynamic UI components.
- Collaborated with team members to plan website layout, product categorization, and feature enhancements.
- Applied problem solving and debugging skills to optimize website performance and usability.

Data Visualization Web App | Python Flask, Pandas, Matplotlib, HTML, CSS

May 2025 to July 2025

- Developed a data driven web application using **Flask** for backend processing and **Pandas** for data analysis and manipulation.
- Integrated **Matplotlib** to generate dynamic visualizations and interactive charts within the web interface.
- Designed responsive front end using **HTML** and **CSS**, enabling users to upload datasets and visualize insights in real time.

Awards & Certifications

- **Web Development Certificate – KistechnoSoftware (2024):** Completed training in HTML, CSS, and JavaScript for front-end development.
- **ICI Fest (2024):** Participated in technical fest showcasing innovative projects and coding skills.
- **DBMS Certification – Infosys (2024):** Completed training on Database Management Systems, covering relational models, SQL, and normalization.
- **OOP Certification – AICTE (2024):** Completed course on Object Oriented Programming concepts in Java.

Education

B.Tech in Computer Science and Engineering

SKIT College, Jaipur

Graduated: 2027

CGPA: 8.6 / 10
